

SOCIAL and PERSONAL

Mr. and Mrs. Henry Bernhardt, 127 Second street north, are the parents of a daughter born today at St. Luke's hospital, Fargo.

Otto Stangel, 311 Tenth street north, district supervisor for the farm security administration, is in Chicago attending conferences.

Mr. and Mrs. Sig Bjornson, 212 Twelfth street north, and Mr. and Mrs. Joseph Roel and children, Fargo, have returned from Minneapolis, where they spent the week-end visiting friends and attending the Minnesota-Ohio football game.

Duane Euren, seaman second class, son of Mr. and Mrs. Ed Euren, 17 Fifth street south, has left to report to Great Lakes, Ill., after spending a leave at the home of his parents.

Carroll Keller, Minneapolis, visited Tuesday at the home of Mr. and Mrs. Edward LaPash, 1330 First avenue south. He and his daughter, Karen Keller, who makes her home here, have left to return to Minneapolis, where they will spend a few weeks visiting friends and relatives. They will also visit in Chetek, Wis.

Al Bjornson, son of Mr. and Mrs. Sig Bjornson, 212 Twelfth street north, will leave tonight for San Diego, Calif., for duty with the navy. He graduated from Moorhead high school in June and prior to enlisting in the naval reserve in October, was employed by the Railway Express company.

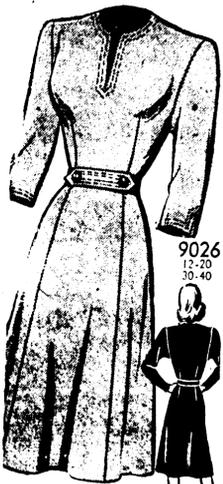

Miss Joanne Anderson, daughter of Mr. and Mrs. George L. Anderson, 305 Fourth street south, will entertain about 16 friends this evening at a Halloween birthday party at her home. Decorations carry out the Halloween theme, games will be played, and lunch will be served.

Captain Charles H. Shure, son of Mr. and Mrs. W. H. Shure, 917 Seventh street south, Fargo, husband of the former Betty Holzer, Moorhead, has received his discharge from the service at Camp Beale, Calif., where he was in the judge advocate general's department.

Darrell Rutten, seaman second class, son of Mr. and Mrs. M. H. Rutten, 1209 Third avenue south, is now in training at yeoman school, Camp Mashau, San Diego, Calif. Rutten graduated from Moorhead high school in June.

Mr. and Mrs. Paul Horn were host and hostess Tuesday evening at a combined seven o'clock dinner and business meeting for the social committee of the Moorhead Country club, held at the club house. Mr. Horn is chairman of the outgoing committee. Those present were the following members and their wives: Mr. and Mrs. B. J. Rechiene, Mr. and Mrs. J. Clark Muller, Mr. and Mrs. J. H. Murray, Mr. and Mrs. Howard Kornberg, Mr. and Mrs. John Jordine, Mr. and Mrs. M. C. Eckmann, all of Fargo. Mr. and Mrs. Dewey Gates were unable to attend. Mr. Eckman was announced as the new chairman of the committee, and following the business meeting decorations were put up for the Halloween party to be held tonight.

Coming Events

Today

Our Redeemer Lutheran church, Fourth avenue and Seventh street south, reformation day service in the church at 8:00 p. m.

Word has been received of the birth of a daughter, Clara Ann, on October 18, to Mr. and Mrs. William Volesky, Ingewood, Calif. Mrs. Volesky is the former Cecil Bertrand, one-time resident of Moorhead and Fargo.

Albert Flinck will return to his home in Langdon, N. D., after spending a short time visiting at the home of Mr. and Mrs. Nels Strom, 507 Fifth street south. Other guests at the Strom home were Mr. and Mrs. Henry Duckstad, Thief River Falls. Mr. Duckstad was recently released from St. Ansgar's hospital, where he was a patient for five weeks, and Mrs. Duckstad visited at the Strom home during that time.

Our Redeemer Lutheran church, on Fourth avenue and Seventh street south, will hold a reformation day service today in the church at 8:00 p. m.

Ralph Hvidsten, Stephens, has left to return to duty with the marines at San Francisco, Calif., after spending a furlough at his home and visiting at the home of Mr. and Mrs. Nels Strom, 507 Fifth street south. Prior to joining the service, Hvidsten was a student at Concordia college.

Air Scout Planner--

Lieutenant C. M. Taylor, Jr., of the army air corps, will spend Friday and Saturday in Fargo to make plans for the air scout program for senior scouts with the staff and leaders of Red River Valley council, Boy Scouts of America.

All boys 15 years of age and above are eligible for this new program for senior scouts.

In The SERVICE

News of Local Men and Women On Military Duty.

Lieutenant Vernon G. Nicholson, son of Mr. and Mrs. Edwin Nicholson, 818 Eleventh street north, has received his honorable discharge from the service at the Santa Ana army air base, Santa Ana, Calif. Lieutenant Nicholson, veteran of 33 months in the service, flew nine missions during the six months he served in Italy as a B-24 pilot with the 15th air force. He wears the air medal with an oakleaf cluster and the European theater of operations ribbon with three battle stars. Prior to entering the service he was a student at NDAC, Fargo.

Technician Fourth Grade James P. Preston, son of Mr. and Mrs. Daniel Preston, 1023 Seventh avenue south, has received his honorable discharge from the air corps at Santa Ana army air base, Santa Ana, Calif. Preston is a veteran of 37 months in the service, and served in North Africa, Italy, and Southern France. He wears the European theater of operations ribbon with three battle stars. Prior to entering the service he attended MSTC.

Word has been received by M. Cole, 419 Ninth street north, that a close friend of his, Private First Class Russell Ormseth, United States marine corps, has arrived home in Canby after being a prisoner of war since 1941. Mr. Cole has recently moved to Moorhead from Canby. Ormseth was taken prisoner on Guam and later transferred to work on a dredge, navy project. They were released from work on August 15 and told they did not have to return to work the next day, and shortly after that, he was released. The remaining prisoners, along with Ormseth, were returned to the United States on the USS Ozark. He will report to the Great Lakes naval hospital, where he expects to receive a discharge, on completion of his 90-day leave.

Name Committees of Country Club

President Appoints Groups For Year

The list of committees follows: Social—M. C. Eckmann, chairman, Mrs. J. Clark Muller, Mrs. B. J. Rechiene, Mrs. Jay H. Murray, Arnold Miller, Dr. C. Tillisch, Stanley Wright. Golf grounds—Lee Myller, chairman, P. F. Fountain, Walter Wright, Andy Larson, Ed Benedict, Paul Horn, Herbert Nordstrom, Cecil Kenney.

House and grounds—B. J. Rechiene, chairman, Howard Kornberg, Jay H. Murray.

Membership—Henry Adams, chairman, T. J. Bolger, J. D. Nankivell, Don Isaman, Guy Enabnit, Lawrence Connelly, T. J. Skrel.

Finance—C. R. Fridlund, chairman, H. C. Stiening.

Rental—E. J. Rechiene.

Winters sports—Jake Kiefer, chairman, Ed Benedict, B. J. Rechiene, Henry Peterson, Ralph Hollands, Lee Myller.

Stable and bridge path—J. H. Deems, president, Paul Horn, vice president, Henry Peterson, manager, Lawrence Mauritsen secretary, Wayne Peterson, member of the board.

Alpha Phi Gamma Plans Initiation

Will Be Held In North Lounge of Fjelstad Hall

Alpha Phi Gamma, national honorary journalistic fraternity at Concordia college, will hold its annual informal fall initiation Friday evening, November 2, in the North lounge of Fjelstad hall at 7:30.

Arrangements will be made by Lillian Hilmo, Fargo, and Miriam Aas, Fertile. Margaret Schroeder, Eric, N. D., and Connie Levin, Crookston, are on the program and invitation committee.

Requirements for the fraternity are holding a major position or completing two years as a reporter on The Concordian, weekly newspaper.

Ruth Mertz, Leonard, N. D., is president of the organization with Vivian Thorkelson, Fertile, vice president, Miss Hilmo, secretary, and Miss Schroeder, treasurer.

Advisors of Alpha Phi Gamma are Professor and Mrs. Peter Anderson and Professor and Mrs. Cyrus Running.

Present members of the fraternity are Dagny Haugrud, Pelican Rapids, Elwyn Nissen, Van Hook, N. D., and the Misses Thorkelson, Aas, Mertz, Hilmo, Schroeder, and Levin.

Alvin Adams Wed To Leaila Brown

Mr. and Mrs. Milton Adams, Pelton, announce the marriage of their son, Staff Sergeant Alvin, to Miss Leaila M. Brown, Denver, Colo. The double ring ceremony took place at 4:00 p. m. October 22 in Denver.

The bride wore an aqua blue dress with matching hat and accessories, and a corsage of gardenias. Her only jewelry was a double strand of pearls, gift of the groom.

The couple will make their home in Denver following a wedding trip to New Mexico. Staff Sergeant Adams has recently been discharged from the air forces after three years' service with the 15th air force through the African and European theaters of war.

Surviving are her husband; three sons: Clement, at home; Sergeant Lyle and Sergeant Vernon, both at Camp McCoy; two sisters: Mrs. Norval Knudson, Crosby, N. D.; and Mrs. Basil Sherman, Frazee; and a sister and brother in Norway. There are seven grandchildren. The body is at the A. J. Wright and Sons funeral home.

Comstock Woman Dies In Hospital

Mrs. Andrew Miller, 62, Comstock, died Tuesday in a local hospital, where she had been a patient for a week. She was born in Asker, Norway, July 26, 1883, and came to this country in 1905, settling in Comstock, where she had made her home since. In September, 1908, she married Andrew Miller, Moorhead.

Surviving are her husband; three sons: Clement, at home; Sergeant Lyle and Sergeant Vernon, both at Camp McCoy; two sisters: Mrs. Norval Knudson, Crosby, N. D.; and Mrs. Basil Sherman, Frazee; and a sister and brother in Norway. There are seven grandchildren. The body is at the A. J. Wright and Sons funeral home.

These Heat-Saving Tricks Will Stretch Fuel Supply

Learn to say quick "goodbys," chink drafty doorways with rolled-up rugs, caulk your window frames, and you'll conserve fuel. All of these heat-saving methods — and more suggested by experts — are needed for the coming winter and one of the worst fuel shortages in the country's history.

More steps? Haul out all unused rugs and spread around to have the two per cent heat that's lost through floors. For further fuel-saving, line floor coverings with matting, insulating blankets, or plain newspaper in several overlapping layers.

Trying to heat a porous house, experts say, is like trying to fill a kitchen colander with water. By tightening up or insulating points where cold air currents enter — leaky side walls, attic doors and window glass, cracks and air holes in putty or window panes — you can save considerable heat. An insulated attic, for instance, will save as much as 25 per cent loss of heat.

Do you use radiators? For efficient heating, keep coils free of dust. Don't fence them in with covers, don't use for drying wet wash, and don't cover with heavy curtains. If heat from radiator warms only one side of the room, turn an electric fan on it to set up an air current that will circulate through the room. Radiators will throw more heat back into rooms if you'll put behind them reflectors made of sheets of plywood or composition painted in a light color.

How clean is your furnace? Choked drafts cut heating efficiency, so scrape out the deposits that choke. Clean the flues. Remove rust scales and sediment from boiler. Keep oil burner tips clean. Cover long heat lines in cellar with asbestos. Clean the fire pot, the smoke pipes and all interior metal parts of furnace. Replace broken or warped gaskets. Check steam lines for water pockets. Get plumber to drain and balance your hot water system for equal circulation of heat to all rooms on both sides.

Coal-saving tips? A deep fire bed from grate to fire door saves more fuel than a shallow bed. A mechanical stoker and a thermostat control that prevents overheating are coal savers. Banked fires, which reduce temperature to prevent overheating of house, save coal. If your house is going to be empty during the day, bank fires in the morning. Closed dampers in heating pipes that lead to unused rooms — and keeping doors to these rooms shut — will save fuel.

Closed dampers in heating pipes that lead to unused rooms — and keeping doors to these rooms shut — will save fuel.

Coal-saving tips? A deep fire bed from grate to fire door saves more fuel than a shallow bed. A mechanical stoker and a thermostat control that prevents overheating are coal savers. Banked fires, which reduce temperature to prevent overheating of house, save coal. If your house is going to be empty during the day, bank fires in the morning. Closed dampers in heating pipes that lead to unused rooms — and keeping doors to these rooms shut — will save fuel.

Bonelli Concert Will Be Tonight

Noted Baritone To Sing At Armory

Richard Bonelli, baritone with the Metropolitan Opera association, will be presented this evening at 8:20 in a concert at the Moorhead armory. Bonelli, under exclusive management of W. Colston Leigh, Inc., New York, is presented tonight under the auspices of the Amphion artist course, in conjunction with Concordia college and MSTC. This is the first program in the artist course this year. Alexander Aster will be at the piano.

The first part of Bonelli's program will include "Where'er You Walk" by Handel, and an aria: "Largo al Factotum" from "Barber of Seville" by Rossini. The four numbers in the second part
