

Descendants of Lauritz (Lars) Rasmusson Mandt

Generation No. 1

1. LAURITZ (LARS) RASMUSSEN¹ MANDT was born in Germany or Denmark. He married ENGEL MICKELSDOTTER. She was born in Germany or Denmark.

Notes for LAURITZ (LARS) RASMUSSEN MANDT:

Church records in Thisted Denmark list Lars and Engel as having their son Mikkel baptized. It is believed that Lars originally came from Schlesweig-Holstein in Germany, passed through Denmark and finally settled in Norway. It is suggested that he may have been of noble birth, got himself in some kind of trouble, and took a powder to Scandinavia. He was literate, spoke and wrote very well, and apparently did have some kind of privileged upbringing. That wasn't the normal state of things in the late 1600's for run-of-the-mill nobody-much.

2. MIKKEL LARRISON² MANDT (*LAURITZ (LARS) RASMUSSEN¹*) was born 1692 in Denmark, and died 04 Aug 1766 in Son Peter Christian's home in Skafsa, Norway. He married ELSE RESEN Abt. 1717 in Frederikstad, Norway, daughter of LARS CHRISTIANSEN RESEN. She was born 1686 in Norway, and died 19 Mar 1795 in Skafsa, Norway.

Notes for MIKKEL LARRISON MANDT:

Mikkel arrived in Norway in about his fifth year. He was raised in Kristiansand. He learned the gold and silversmith trade from his father. He was a non-commissioned officer in the First Western Regiment in the war against Karl XII of Sweden. Mikkel had regimental training in the Vinje area when he was a young soldier. It is likely that during this military training he went Frederikstad. There he met Else Larsdotter Resen, daughter of Lars Christiansen Resen, a prominent merchant. Mikkel and Else married and settled in Kristiansand. In 1722 Mikkel was listed as a goldsmith and watchmaker in the town of Skien. In 1728 the family moved to Vinje in Telemark where Mikkel built a small house and workshop next to the Vinje church. He dug a pond and is said to have had the first geese in Telemark.

Mikkel became known as a talented and innovative gold and silver craftsman. He is said to have brought the art of gold filagree to Norway. He made silver buckles, buttons, chains and brooches. A few spoons dating from around 1750 have been found. Mikkel was a lensmann (civic official) in Vije and a Klokker (sexton) for the parish.

He died peacefully at the home of his son Peter at age 74 in 1766 and was buried in Skafsa Cemetery.
